

POTENCE PIVOTANTE

Charlotte Perriand

Charlotte Perriand was inspired by the sailboat boom when, in 1938, she conceived the Potence Pivotante, a purist masterpiece reduced to the essentials. Designed as a highly accessible swivel lamp, realized using two black tubular sections assembled in the shape of an inverted L to lead the electrical wire from the switch to the bulb.

Available with a 2-meter arm and in the MINI version with reduced dimensions. Potence Pivotante is available in aluminium and matte black painted metal and in the new red and grey finishes.

The original version is equipped with a Globo E27 bulb, while the MINI version is available with G9 mount and diffuser in opal sandblasted glass. The arm attached to the wall rotates 180° horizontally. Power cord supplied with plug and dimmer.

LED/HALO

LAMPING

Source	E27
Total power	8W
Emission	diffused
Switching	dimmable
Tension	230V
Color temperature	2700K
Luminous flux	900lm (source luminous flux)
Typ CRI	80
Materials	steel + aluminium
Notes	orientable, switch dimmer on cable, max power allowed: 100W E27 globe halo bulb, installation with cable and plug, cable length 3,2m
Net lamp weight	4 kg

Codes

POT ENW 32

Structure

black

PACKAGE

Package 01

Dimension: 11x23x190 cm / Gross weight: 6,7 kg

Package 02

Dimension: 20x20x20 cm / Gross weight: 1 kg
