

TITIA MINOR

Arihiro Miyake

The design theme of the pendant lighting is addressed with a new dimension, designed to referred to the domestic environment and hospitality. Result of a considerable work of engineering, Titia Minor represents a jump to the future in the dematerialization and miniaturization of light sources, becoming part of the structure itself. A unique project in which the vacuum is filled exclusively by the light of the structure. The identical modules in recycled polymer are injection-moulded and equipped with quick couplings, allowing a practical and fast assembly and creating a discreet silhouette. Available in two finishes: matte black and matte white.

LED

LAMPING

Source	LED board
Total power	65W
Emission	indirect
Switching	dimmable 1-10V
Tension	110-240V
Color temperature	2700K
Luminous flux	2452lm
Typ CRI	85
Dimensions	ø70,4x31,2
Notes	black RAL 9005, cable length 3m, DALI, version on request, TRIAC VERSION on request

Codes

TIT LNN 52

Structure

matte black
